

I'm the white rapping cowboy, there's not many of my kind  
So listen real close, cause I've got some things on my mind.

It's been a different year, with all the changes due to Covid,  
But I feel real lucky with the group I have in my 'hood.

James stays up at night and would like to sleep all day,  
Keira knows her music, her song requests I always play.

Denisse is quiet, Ivanna gets a little crazy,  
We're all glad that Charlotte came to us... from New York Citay.

Scarlett and Sage, they both like animals and critters,  
Suvam loves baseball and can really throw the heater.

Vanessa shows up tardy... each and every day,  
But she works real hard, so we love her anyway.

Lena's really organized, she likes things a certain way.  
She has the cleanest desk with places for all her thangs.

Mia's a little sassy but she always keeps it classy,  
Oscar is our new guy, I like to call him Buddy.

Taylor and Ivan, they are the mature ones of the bunch,  
And Jerph is the one... who entertains us at lunch.

Travis watches YouTube in every class every day,  
And surprise surprise, Piper forgot her fork again today!

Our group's a little weird, and everybody knows it,  
But we've made the most of, this thing that they call Covid!

Yeah we've made the most of this thing called Covid!

Get you some of that.
